Taking your stairs to the next level

stairtek.com

STAIRTEK'S RETREAD HAS MADE REFACING STAIRS EASIER, QUICKER, AND MORE AFFORDABLE.

FEATURES AND BENEFITS:

1. Solid Hardwood Tread Cap

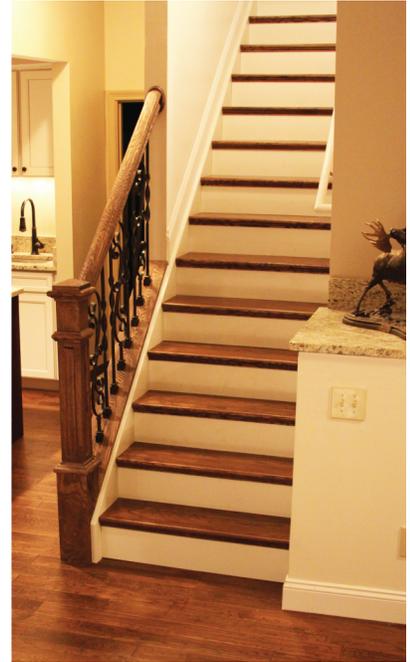

- Competitor's products are generally made of plywood covered with a face of thin veneer.
- Our solid treads are strong and stable. Plus, the retread can be refinished just like a traditional tread.

2. Minimal Impact on Rise

- The Retread refacing system mimics original stair geometry.
- Stairtek Retreads are more code friendly than traditional treads.

BEFORE

AFTER

URETHANE ADHESIVE:

Essential for securing the Retread and Riser to the staircase.

TREAD TOOL:

The tread template tool enables anyone to install perfect fitting treads in their home.

RISER & REMODEL RISER:

Primed poplar or matching hardwood available in 3/4 or 11/32 thickness.
