DURA LAST

DuraPlast is a poly-fiber composite door frame that will not absorb or wick moisture, and prevents warping, rotting, and splitting

It is easily machined just like wood frames, but recommended for single units.

Available in Woodgrain or White Cap

DURA-FRAME

DuraFrame is an unfinished option made of a rot resistant wood, finger-jointed to the bottom of premium red pine. We will not professionally paint or stain the exterior of this jamb option.

For a low maintenance entry, it is recommended this option is ordered with cladding, or the user chooses one of the options above.
