Deluxe Aluminum Cladding Options Available

DURA-FRAME ROT PROOF

Alaskan Yellow Cypress, one of the planed's most durable rot resistant woods, finger-jointed to the bottom of premium pine frame component.

DURA-PLAST COMPOSITE

An innovative alternative to traditional wood door jambs. A door-frame system that combines all the strength and convenience of wood with enhanced properties that make it moisture, rot, and insect resistant. Composite jambs require units to be installed per manufacturer's guidelines.

- Doorframe will not absorb or wick moisture, and prevents warping, rotting, and splitting
- Twice the screw-holding power of traditional wood doorframes
- Easily machined just like wood frames
- Various lengths

DURA-TECH

- Thick, rigid, impact-resistant PVC finish
- Permanent waterproof adhesive
- Dura-Frame Lifetime Warranty wood substrate with Alaskan Yellow Cypress bottom
- Available in Tan, Fir and UV resistant white

DURA-TECH FX

- Heat Resistant
- Solar Reflective
- Aesthetically Seamless Design
- UV Stable
- Available in Black Exterior/White Interior and Sandstone Exterior/White Interior
