Note: Finish colors may vary from actual application due to fluctuations in finishing or printing.
We highly recommend you reference a Palmer-Donavin Paint Palette to make your color selection.

EnLiten™ Flush-Glazed Design

Create a clean look with maximum views.

Flush-Glazed Glass

Lip-Lite Frame

See the Difference

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Flush-Glazed Glass

Lip-Lite Frame

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal.

This reduces the potential for air and water infiltration, among other benefits.

Controllable privacy.

Smooth-Star® doors with internal blinds featuring EnLiten flush-glazed designs deliver simplicity and allow for optimal daylight and outdoor views, or complete privacy. See Style S2600.

Peace of mind.

EnLiten™ flush-glazed designs are backed by the industry's most comprehensive lifetime limited warranty, plus warranty riders for peace of mind.

Warranty Riders

Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.
