

## Paint Options for TimberTech AZEK Decking End Cuts

If end cuts are exposed and visible, you can paint them to match the board color for a more finished look.

### Follow these steps to make it happen.

1. Choose a paint – we recommend any of these 3 options which offer great adhesion to our boards. You won't need more than 1 quart.

Sherwin-Williams Resilience  
\$\$

BEHR Ultra Stain Blocking  
\$

Valspar DuraMax  
\$

2. Take a piece of your board to the store to have them match the color perfectly.
3. Clean the end surface and make sure it is dry before painting.
4. Apply the paint with a small sponge brush or standard paintbrush. Follow manufacturer's instructions for optimal temperatures for painting.
5. We recommend applying two coats. Follow manufacturer's instructions for dry times between coats.

	Paint Color Recommendations	Sherwin-Williams	BEHR	Valspar
VINTAGE	Coastline®	"SW 9168 Elephant Ear"	"N200-6 Kindling"	"4003-2B Rugged Suede"
